

Installation Directions, Downloads, and “Compilation” Haks required for Sanctum of the Archmage Chapter 1, v4.1q

The following package downloads are required to play Sanctum of the Archmage Chapter 1, version 4.1q. In each case, download the linked file and extract the contents using 7zip or a compatible file compression program. Find your NWN game folder, and copy all “.mod” files to the “modules” folder, all “.hak” files to the “hak” folder, all “.tlk” files to the “tlk” folder, and all “.bmu” files to the “music” folder. Please follow any additional instructions provided below, or in the download for the package. Send installation problems or questions to andarian @ andarian . com.

[Community Tileset Project \(CTP\)](#) - ([Project Page](#))

Note that only the following downloads are required: [CTP Common](#) [CTP Loadscreens](#)

[CTP Generic Doors](#) - ([Project Page](#) / [Download Link](#))

[NWNCQ Project v1.3](#) - ([Project Page](#)) Download Links: [NWNCQ](#) [NWNCQ Patch](#)

Additional Notes

- Unlike previous versions of the modules, the “Community Music Pack” download ***is now required*** to install and play Sanctum of the Archmage v4.
- Sanctum of the Archmage: The Sight was built and designed to work with Project Q version 1.5. I have no reason to believe that later releases of Project Q are not backward compatible, and expect the module to work equally well with later versions of it. If needed, however, the required Project Q v1.5 files can be downloaded from the following location:

Project Qv1.5 [Project Page](#) Required Downloads: **v1.5 - HAKS** **v1.5 - Ambient Sounds**
